Natural wood: a trend that's here to stay

Whether used by itself or as a signature element of a multi-color design, natural wood always brings warmth and coziness to the interior design.

Veneers add another dimension to the climbing wall desing and offer play of shades and hues with natural wood. Our designers work with a large selection of veneers, ask your contact person for the current availabilities and pricing. Take a look at this selection of design concepts created by our design professionals, get inspired and let your imagination flow.
