

# HOP-ON

## NINJA COURSE

Introducing Hop-on Ninja, the new addition to our Ninja Course portfolio. This high capacity course is the perfect retrofit for the regular trampoline bed or any other facility wanting to add a new attraction without having to rethink their business model, hire additional operating staff or spend too much.

### INCREASED CAPACITY

The Hop-on Ninja offers a bigger capacity than the classic ninja because it doesn't feature any platform between obstacles and has shorter lines. This offers more liberty to kids who can freely roam around and enjoy obstacles at the same time.

### FLEXIBILITY OF OPERATION

The layout of the Hop-on Ninja makes it easy to integrate to any facility. It can accommodate any business model with no need of additional operating staff.

### AUTHENTIC NINJA COURSE EXPERIENCE

The Hop-on Ninja delivers the same thrilling experience as a regular ninja course—it allows visitors to train, compete and unwind in a fun and safe environment.

# WALLTOPIA

OVER 2000 PROJECTS  
IN 80+ COUNTRIES ON 6 CONTINENTS

---

Founded in Bulgaria in 1998, Walltopia is a world leader in the Climbing and Adventure & Leisure industries. The company started out with the purpose of designing and manufacturing the most advanced climbing facilities in the world.

Our passion for science, technology and our obsession with excellence and safety, made us a leader and top expert in the Climbing and Active Entertainment industries.

We pride ourselves with our highly complex projects that always deliver expected results – starting with the design, moving on to the installation and finally – the certification.

Today we have the largest portfolio of classic and novel attractions that combine fun and entertainment with healthy doses of adrenaline for people of all ages. With sales offices in the USA, China and head office in Sofia, Bulgaria, and four production plants employing more than 500 people, to this day, we have produced over 2000 projects in 80+ countries and on 6 continents.

Our products are installed across adventure parks, amusement parks, shopping malls, gyms, recreational areas, ski resorts, schools and universities, hotels, and more.
