ACTIVE ENTERTAINMENT

Walltopia Active Entertainment product line evolved naturally from our experience in the climbing wall industry and the natural human craving for play. We were driven by the desire to transform physical activity into amusing and purposeful play, suitable and entertaining for everyone, with no need of specific sport preparation and minimum equipment required for the participants. Providing versatile experience, in their core our products share one and the same goal. They help us get active and encourage us to spend more time with our family and friends in a meaningful, present way. That's what we call active entertainment.

*Walltopia is the world leader in the design and production of climbing walls. The company was founded in 1998 and to date has over 1800 projects in 76 countries on 6 continents.*

Fun Walls are climbing wall attractions for children and young adults that enhance cognitive, social and emotional skills through interactive challenges and team games.

---

## ROLLGLIDER

Rollglider is an aerial attraction driven by gravity and controlled by the participant's body movement. The experience feels like a mix of hang gliding, coaster ride and proximity flight in a safe and accessible environment.

---

## ROPETOPIA

Ropetopia develops the traditional experience of low and high aerial trails into an engaging design with different levels of obstacles to test balance, flexibility and courage.

---

## ZIP LINES

Zip Lines give a sense of flying: among trees, above waters and canyons or in a shopping mall atrium and no matter where, they make the adrenaline levels go up.

---

## NINJA COURSE

Ninja Course is obstacle course that provides a great workout for the whole body challenging strength, endurance and balance in a completely safe environment.

---

## ARTIFICIAL CAVES

Artificial Caves turn free space into an adventurous and diverse amusement area and are a great way to experience a much realistic cave walk combined with educating elements.

---

## ADVENTURE HUBS

Adventure Hub incorporates a variety of active entertainment attractions under one roof through custom theming to deliver the ultimate adventure experience. It is designed to fit customers' expectations for high people throughput, low maintenance and to promote repeatable visits.
